Should be blind to existing conditions and should allow ourselves to become foolish idealists if we did not realize that, with all the nations of the world armed and prepared for war, we must be ourselves in a similar condition to prevent other nations from taking advantage of us.—William Howard Taft.

Boys' State, sponsored by the American Legion in 34 other states, originated in 1897, as an experiment in practical citizenship and government. Boys chosen from all high schools of the state spend a week at the state capital, organizing their group on the principles of state and national government. Interest in civic, state and national affairs is encouraged at these sessions, and brought back by the representatives later to their own schools.

W. H. Monroe, Boys' State chairman for Harbor City American Legion Post, is in charge of arrangements for Dick's trip. All expenses will be paid by the local Post.

Jim Friend, his brother, represented the school two years ago.
